CompTIA Security+ | CySA+ | PenTest+ | Splunk | Active Directory | Windows Security Monitoring

Entry-level cybersecurity professional with hands-on experience in security monitoring, log analysis, and Active Directory environments. CompTIA Security+, CySA+, and PenTest+ certified. Built and maintained a home lab simulating enterprise security operations, including SIEM log ingestion, authentication monitoring, and incident documentation. Strong documentation, ownership, and communication skills developed through 4+ years in management roles within high-pressure hospitality environments. Currently pursuing a B.S. in Cybersecurity and Information Assurance at Western Governors University.

Certifications & Education

Certifications | CompTIA A+, Network+, Security+, Data+, CySA+, PenTest+, SecurityX, ITIL 4, Google Cybersecurity, eCTHP, eCIR,

University | B.S. Cybersecurity and Information Assurance (In Progress)

Technology Proficiencies

SIEM & Monitoring: Splunk, Sysmon, Windows Event Logs

Operating Systems: Windows 10/11, Windows Server 2022, Linux (Ubuntu)

Identity & Access: Active Directory, user/group management, authentication logging

Security Concepts: Incident triage, alert validation, authentication analysis, threat detection basics

Networking: DNS fundamentals, VPN, TCP/IP basics

Documentation: Incident notes, structured reporting, escalation-ready case summaries

System Administration Experience

Windows Server 2022 | Active Directory Home Lab

- Configured Windows Server 2022 as a Domain Controller to simulate an enterprise environment.
 - Created and managed Organizational Units (OUs), users, and groups within Active Directory.
 - Installed and configured Sysmon to enhance endpoint visibility and log generation.
 - Deployed Splunk Universal Forwarder to ingest Windows security logs into a centralized SIEM environment.
 - Investigated Windows authentication logs in Splunk to identify failed login attempts and suspicious activity patterns.
 - Correlated event data to simulate incident triage workflows and documented findings in structured case notes.
 - Practiced escalation scenarios by compiling timelines, affected assets, and observed indicators of compromise (IOCs).
-

Work Experience

Night Auditor | Nurai Island, Abu Dhabi, UAE | *June 2021 – August 2023*

- Managed overnight operations independently, demonstrating ownership and accountability in high-pressure environments.
- Produced structured daily operational and financial reports for executive leadership.
- Resolved customer-facing technical and system-related issues while maintaining service continuity.
- Coordinated across departments to ensure smooth shift handovers and accurate documentation.

Guest Service Agent | Grand Millennium Al Wahda, Abu Dhabi, UAE | *August 2018 – February 2020*

- Delivered high-level customer support in fast-paced environments requiring multitasking and rapid problem resolution.
- Maintained accurate system records and reservation data within digital booking systems.
- Communicated clearly with internal teams to resolve operational issues efficiently.
